

NISRIN SHOUKAT ATTARWALA

London, UK | nisrin.attarwala@gmail.com | linkedin.com/in/nisrin-attarwala

PROFESSIONAL SUMMARY:

Regulatory operations leader with 15 years in regulated financial and legal environments, most recently running SEC filing operations across 100+ US fund portfolios at Franklin Templeton. Led the client side of a fund-filing platform migration, from legacy data audit through to user training and go-live. Builds the tooling as well as running the process, using VBA, Power BI, PowerApps and Python to replace manual compliance workflows. Completing an MSc in Financial Technology and Innovation at Bayes Business School, and author of RegVarsity, a free site teaching UK and EU financial regulation.

PROFESSIONAL EXPERIENCE:

FRANKLIN TEMPLETON, Hyderabad, India

Paralegal (Legal and Regulatory Operations)

Jan 2023 - Sept 2025

- Led the client side of a new fund-filing platform rollout, auditing legacy data structures and rebuilding the checklists, templates and user training, which halved new-joiner onboarding from 3 months to 1.5 months.
- Built a fund-information dashboard in Excel (Power Query, Power Pivot) and later Power BI, giving the team a single self-updating view of funds, registrants and share classes and cutting research time by around 30%.
- Automated a SharePoint filing-deadline tracker in PowerApps and wrote a VBA macro compiling multi-year fee data from dozens of separate reports, turning a multi-day manual task into minutes and saving around 30 hours of work per cycle.
- Prepared and filed SEC registration documents (Form N-1A, 485A/B, 497K, N-PX) covering Franklin's full range of US-listed ETFs alongside its mutual funds, validating data across 100+ portfolios filed through SEC EDGAR.
- Worked with legal, compliance, portfolio managers and Big 4 auditors (PwC, EY) to interpret regulatory change and keep portfolios audit-ready, and queried an internal fund data system and later a Snowflake environment to produce the recurring beneficial ownership report used in fund disclosures.

Senior Legal Specialist (Regulatory Reporting)

Feb 2018 - Dec 2022

- Owned quality standards for SEC regulatory filings, introducing quality checks and process documentation later adopted as the team standard across the reporting workflow.
- Diagnosed recurring filing errors through root-cause analysis with US attorneys and paralegals, then rewrote the process documents and trained new joiners on the revised workflow so the team worked to one consistent standard.

THOMSON REUTERS, Hyderabad, India

Associate Publishing Specialist, rising to Senior Publishing Specialist (Legal and Regulatory Operations, US Westlaw)

July 2010 - Feb 2018

- Acted as team lead for 12, running performance reviews, hiring and weekly production meetings with US stakeholders, while owning quality control and process documentation for US Westlaw legal and regulatory content.
- Redesigned the new-hire training plan as subject-matter expert and core process trainer, delivering training in the US and APAC and cutting onboarding from six months to three.

EDUCATION:

Bayes Business School, City, University of London | MSc Financial Technology & Innovation Sept 2025 - Sept 2026

Relevant modules: Regulatory Compliance, Ethics & Social Values; Data Analytics for Fintech; Decentralised Finance & Blockchain Applications; Financial Markets & Financial Intermediation. Awarded the Avgoustinos Apostolou Scholarship for academic merit.

M.O.P. Vaishnav College for Women, Chennai, India | MSc Information Technology 2010

88%, Distinction.

Mohamed Sathak College of Arts & Science, Chennai, India | BSc Computer Science 2008

73%, First Class.

PROJECTS:

- **RegVarsity (regvarsity.vercel.app):** Built and launched a free site teaching UK and EU financial regulation, 17 modules across the FCA Handbook, MiCA and UK GDPR, with quizzes, a glossary and an AI tutor. Drafted with heavy AI assistance, then every figure verified against primary sources. [Demo Link](#); [GitHub Link](#)
 - **DeFi Wallet Risk Intelligence:** Built a real-time AML screening tool for XRP Ledger wallets that scores behavioural risk across four signals, screens live on-chain activity against the OFAC SDN list, and generates AI-written compliance narratives. [Demo Link](#); [GitHub Link](#)
 - **RegTrack:** Built a Python and Streamlit dashboard tracking filing obligations across 6 regulators, pairing a real-time deadline engine with an LLM-powered explainer that generates filing-specific checklists. [Demo Link](#); [GitHub Link](#)
-

ADDITIONAL INFORMATION:

Tech skills: Excel (Power Query, Power Pivot), Power BI, PowerApps, VBA, SQL, Snowflake, Python, Streamlit, Tableau, Git, SAP (end user)

Process: Process mapping and flowcharts, process re-engineering, control and SOP documentation, quality assurance, user training and rollout

AI Tools: Claude, ChatGPT, Claude Code, Manus, LLM application development (Groq/LLaMA 3.3)

Certifications: Bloomberg Market Concepts, AmplifyMe Finance Accelerator & M&A (Morgan Stanley and UBS), Google Cloud Responsible AI and Generative AI

Languages: English (Native), Hindi (Native), Gujarati (Native), Tamil (Fluent)

Leadership & Community:

- Elected Student Representative and Student Ambassador at Bayes, presenting cohort feedback to the Course Director and advising prospective students.
- Participant in a 4-week Claude AI workshop with Women in Tech UK, helping fellow members build AI agents using just prompts. Few of the women have gone on to setup their own start-ups.
- Co-led the Women at Franklin Templeton employee resource group (2019-2022) and led planning for the first Franklin Templeton International Men's Day cooking competition, assembling a committee and coordinating catering, marketing and logistics; strong turnout sparked an ongoing companywide recipe-sharing community on the internal network.
