PROFILE

Data-driven Regulatory Reporting and Compliance Operations specialist with 15 years of structured experience in regulated financial and legal information environments, including 7+ years managing high-volume regulatory disclosures at Franklin Templeton. Expert in data validation, reconciliation controls, and process automation (SQL, Python, Advanced Excel/VBA), with a proven track record of optimizing reporting workflows by up to 30%. Currently completing an MSc in Financial Technology & Innovation at Bayes Business School, specializing in UK/EU regulatory frameworks (FCA RegData structures, DORA, and MiCA).

CORE COMPETENCIES

Regulatory Data Architecture: Regulatory Reporting Workflows, Data Validation & Reconciliation Controls, Taxonomy Mapping, XML/XBRL Data Structures.

Regulatory expertise (applied): SEC EDGAR, Form N-1A, 485A/B, 497K, N-PX, iXBRL/XBRL, data validation & reconciliation

UK/EU frameworks (currently studying): FCA Handbook (SUP 16), RegData Reporting Frameworks, DORA, Operational Resilience (PS21/3).

Technical Toolset: Python (Pandas, NumPy), SQL Querying, Advanced Excel, Tableau.

Change & Leadership: Translating Regulatory Change into Process Workflows, Cross-functional Stakeholder Management (Auditors, Legal, IT), Cross-Border Operations.

PROFESSIONAL EXPERIENCE

Paralegal – Regulatory Reporting & SEC Compliance Operations Jan 2023 – Sept 2025

Franklin Templeton – Hyderabad, India

- Managed end-to-end data reconciliation, validation, and submission of high-volume regulatory filings across 100+ fund portfolios, achieving 100% data integrity against strict statutory deadlines.
- Engineered an automated data reconciliation model using Excel/VBA that streamlined multi-source financial and fee data aggregation, reducing a multi-day manual data cycle to minutes while eliminating manual-entry risk.
- Redesigned and optimized the annual reporting data workflow, increasing operational processing efficiency by 30% through dynamic scheduling models and cross-functional pipeline tracking.
- Interpreted evolving regulatory changes and converted complex compliance mandates into repeatable, fully documented technical and operational processes.
- Partnered closely with compliance, legal, internal fund reporting teams, and Big 4 auditors (PwC, EY) to ensure seamless audit readiness and data control verification.

Senior Legal Specialist – Regulatory Reporting & Process Feb 2018 – Dec 2022

Franklin Templeton – Hyderabad, India

- Prepared and audited complex regulatory disclosure datasets (including XBRL/iXBRL formatting) for fund portfolios under strict time-sensitive windows.
- Authored comprehensive process documentation and schema guidance that standardized the team's data-entry and validation practices.
- Designed and executed a comprehensive technical training framework for new hires, successfully halving the operational onboarding ramp-up time from 6 months to 3 months.

- **Co-led** the Women Employee Resource Group (2019–2022), driving cross-functional development workshops and managing regional stakeholder engagement.

Associate Publishing Specialist → Senior Publishing Specialist Jul 2010 – Feb 2018

Thomson Reuters – Hyderabad, India (Legal Editorial & Regulatory Data Operations)

- Advanced through accelerated promotions to lead quality control operations for high-tier regulatory and statutory legal data products (US Westlaw).
- Supervised a data operations team of 12 specialists, managing daily capacity trackers, performance KPIs, and multi-jurisdictional stakeholder communications.
- Audited complex legal, statutory, and regulatory manuscripts to ensure absolute adherence to structural formatting and data taxonomy standards.

UPCOMING & COMPLETED UK REGULATORY & DATA PROJECTS

Bayes Business School – London, UK – MSc Dissertation: Tokenising Regulatory State for Ex-Ante Compliance on XRPL | In Progress (Due Sep 2026)

- Developed a technical architecture designed to shift compliance verification from ex-post reporting to ex-ante (pre-settlement) enforcement using distributed ledger state logic.
- Modelled regulatory thresholds based on EU/UK prudential frameworks (inspired by MiCA data points), mapping legislative mandates into clear program logic.
- Research position paper accepted for open-source publication by XRPL Commons, Paris.

Bayes Business School – London, UK – Applied Business Intelligence: Weather Risk & Electricity Markets | In Progress (Due June 2026)

- Extracting, cleaning, and modeling four years of hourly European energy market data for Spain using Python and SQL.
- Designing a high-impact Tableau dashboard to perform time-series, correlation, and seasonality analyses, converting complex market pricing data into clear insights for non-technical audience.

EDUCATION

MSc in Financial Technology & Innovation | Bayes Business School (City, University of London) – London, UK | Expected September 2026

- Awards & Leadership: Recipient of the Avgoustinos Apostolou Scholarship for Academic Merit; Elected Student Cohort Representative & Student Ambassador.

MSc in Information Technology | M.O.P. Vaishnav College for Women (Madras University) – Chennai, India | 2010 (Graduated 88% with Distinction)

BSc in Computer Science | Mohamed Sathak College of Arts and Science (Madras University) – Chennai, India | 2008 (Graduated 73% First Class)

Core foundations: Data Structures, C, C++, Java, SQL, Oracle Database Architecture.

TECHNICAL SKILLS & CERTIFICATIONS

Languages & Data: Python (Pandas, NumPy, Matplotlib), SQL, R, VBA, Excel (Power Query, Power Pivot), Tableau.

Certifications: AmplifyMe Finance Accelerator (In partnership with Morgan Stanley & UBS), Google Cloud Responsible AI Foundations, Certified Oracle Database Associate.

Volunteering: Organizing Committee, Thomson Reuters Foundation – Trust Conference (2016–2017).
