

NISRIN SHOUKAT ATTARWALA

London, UK | nisrin.attarwala@gmail.com | [linkedin.com/in/nisrin-attarwala](https://www.linkedin.com/in/nisrin-attarwala)

PROFESSIONAL SUMMARY:

A career changer moving from 7.5 years in SEC regulatory reporting at Franklin Templeton into consulting, with a track record of turning manual, error-prone processes into reliable, scalable systems, most recently on Franklin's first tokenised fund registration. Now completing an MSc in Financial Technology and Innovation at Bayes Business School, motivated by making complex regulation usable through better process and technology design.

EDUCATION:

Bayes Business School, City, University of London | MSc Financial Technology & Innovation | Sept 2025 - Sept 2026

Awarded the Avgoustinos Apostolou Scholarship for academic merit. Elected Student Representative & Student Ambassador (Oct 2025 - present).

M.O.P. Vaishnav College for Women, Chennai, India | MSc Information Technology 2010

88%, Distinction.

Mohamed Sathak College of Arts & Science, Chennai, India | BSc Computer Science 2008

73%, First Class.

PROFESSIONAL EXPERIENCE:

FRANKLIN TEMPLETON, Hyderabad, India

Paralegal (Legal and Regulatory Operations)

Jan 2023 - Sept 2025

- Managed SEC filing operations across 100+ US fund portfolios via EDGAR, including the registration filing for the Franklin OnChain U.S. Government Money Fund, one of the first tokenised funds registered with the SEC, working with portfolio management, product and legal teams.
- Led the client-side rollout of a new fund-filing platform, auditing legacy data structures and building standard checklists and training materials, which cut formatting errors and shortened onboarding for new team members.
- Automated regulatory reporting using VBA and Excel, including a 529 fee and expense macro that cut a multi-day manual process to minutes (saving around 30 hours per cycle), and a linked fund-information dashboard with pivot tables giving the team a single, self-updating view of funds, registrants and share classes.

Senior Legal Specialist (Regulatory Reporting)

Feb 2018 - Dec 2022

- Prepared and filed SEC regulatory forms (N-1A, 485A, 485B, 497K, N-PX) against strict deadlines, with quality-control checks and process documentation later adopted as the team standard.
- Designed new-hire training on regulatory filing processes and co-led the Women at Franklin Templeton employee resource group (2019-2022), building an Inclusion Education Series project that earned company-wide recognition from the CEO.

ACADEMIC PROJECTS:

Global Regulatory Compliance Tracker: RegTech dashboard (Python, Streamlit) with a real-time deadline engine and an AI-powered filing explainer.

DeFi Wallet Risk Intelligence: Real-time AML screening tool for XRP Ledger wallets using behavioural risk scoring and OFAC SDN screening.

ADDITIONAL INFORMATION:

Certifications: Finance Accelerator & M&A Certificate (AmplifyMe), Google Cloud Responsible AI & TensorFlow Foundations

IT Skills: Python, SQL, VBA, Excel (Power Query, Power Pivot), Tableau, Git

Languages: English, Hindi, Gujarati (Native), Tamil (Fluent)

Achievements and Interests: Completed the Franklin Templeton & Decathlon charity run for cancer research (2020), earning a finisher's medal. Featured guest on Franklin Templeton's internal Better Talks podcast (2018), receiving a Kudos Award for the contribution. Currently attending a 4-week Claude AI workshop with Women in Tech UK, helping fellow members troubleshoot prompts. Active volunteer with Red Cross Missing Maps mapathons and school renovation drives.
