

NISRIN SHOUKAT ATTARWALA

London, UK | nisrin.attarwala@gmail.com | [linkedin.com/in/nisrin-attarwala](https://www.linkedin.com/in/nisrin-attarwala)

PROFESSIONAL SUMMARY:

Nearly eight years in SEC regulatory reporting at Franklin Templeton, where I turned manual, error-prone processes into reliable automated ones, most recently on Franklin's first tokenised fund registration. I work across regulation, data and technology, building tools in VBA and Python to make complex reporting faster and more accurate. Now completing an MSc in Financial Technology and Innovation at Bayes Business School, City, University of London.

EDUCATION:

Bayes Business School, City, University of London | MSc Financial Technology & Innovation | Sept 2025 - Sept 2026

Awarded the Avgoustinos Apostolou Scholarship for academic merit. Elected Student Representative & Student Ambassador (Oct 2025 - present).

PROFESSIONAL EXPERIENCE:

FRANKLIN TEMPLETON, Hyderabad, India

Paralegal (Legal and Regulatory Operations)

Jan 2023 - Sept 2025

- Managed SEC filing operations across 100+ US fund portfolios via EDGAR, including the registration filing for the Franklin OnChain U.S. Government Money Fund, one of the first tokenised funds registered with the SEC, working with portfolio management, product and legal teams.
- Led the client-side rollout of a new fund-filing platform, auditing legacy data structures and building standard checklists and training materials, which cut formatting errors and shortened new-joiner onboarding from 3 months to 1.5 months.
- Automated regulatory reporting using VBA and Excel, including a 529 fee and expense macro that cut a multi-day manual process to minutes (saving around 30 hours per cycle), and a linked fund-information dashboard with pivot tables giving the team a single, self-updating view of funds, registrants and share classes.

Senior Legal Specialist (Regulatory Reporting)

Feb 2018 - Dec 2022

- Prepared and filed SEC regulatory forms (N-1A, 485A, 485B, 497K, N-PX) against strict deadlines, with quality-control checks and process documentation later adopted as the team standard.
- Designed new-hire training on regulatory filing processes and co-led the Women at Franklin Templeton employee resource group (2019-2022), building an Inclusion Education Series project that earned company-wide recognition from the CEO.

PROJECTS:

RegVarsity: a free site teaching UK and EU financial regulation in plain English, 17 modules across the FCA Handbook, MiCA and UK GDPR, fact-checked against primary sources. Built with React and TypeScript, deployed on Vercel. [Live](#) · [GitHub](#)

RegTrack: a regulatory compliance dashboard (Python, Streamlit) with a real-time deadline engine and an AI-powered filing explainer. [Demo](#) · [GitHub](#)

DeFi Wallet Risk Intelligence: real-time AML screening tool for XRP Ledger wallets using behavioural risk scoring and OFAC SDN screening. [Demo](#) · [GitHub](#)

Weather Risk & Electricity Markets: an interactive Tableau story analysing four years of Spanish electricity, renewable generation and weather data. [Tableau](#)

ADDITIONAL INFORMATION:

Automation & Data: Excel (Power Query, Power Pivot), VBA, Power BI, PowerApps, SQL, Python, Tableau, SAP (end-user), Git

Operations: Data validation and reconciliation, workflow automation, process documentation and SOPs, audit readiness

Certifications: Finance Accelerator & M&A Certificate (AmplifyMe), Google Cloud Responsible AI & TensorFlow Foundations, Bloomberg Market Concepts (in progress)

Languages: English (Native), Gujarati (Native), Hindi (Fluent), Tamil (Fluent)

Achievements:

- Participant in a 4-week Claude AI workshop with Women in Tech UK, helping fellow members build AI agents using just prompts. Few of the women have gone on to set up their own start-ups.
- Co-led the Women at Franklin Templeton employee resource group (2019-2022) and led planning for the first Franklin Templeton International Men's Day cooking competition, assembling a committee and coordinating catering, marketing and logistics; strong turnout sparked an ongoing companywide recipe-sharing community on the internal network.
- Completed the Franklin Templeton & Decathlon charity 10K run for cancer research (2020) after two months of self-directed training during work breaks, finishing the full distance without a break and earning a medal.
